DETAILED ACTION

Allowable Subject Matter

Claims 1, 3-44, and 46-59 allowed. Claims 2 and 45 have been cancelled by previous Amendment.

Reasons for Allowance

The current prior art of record fails to teach or to fairly suggest the limitation of a means for reducing anchoring energy where the means is an oligomer or polymer within liquid crystal at cell walls.

This limitation appears in all independent claims 1, 13, 18, 33, and 44.

Because claims 3-12 depend from claim 1 they are allowed.

Because claims 14-17 depend from claim 13 they are allowed.

Because claims 19-32 depend from 18 they are allowed.

Because claims 34-43 depend from claim 33 they are allowed.

Because claims 46-59 depend from claim 44 they are allowed.

Notes

1. The Examiner respectfully wishes to draw Applicants' attention to Applicants' comment regarding the words "surround" and "within" at pages 11 and 12 of the Amendment of September 5, 2003.

Upon careful review of Merriam Webster's Collegiate Dictionary, 10TH Ed., the first definition of "surround" states "to enclose on all sides: ENVELOP." The first definition of "within" states "used as a function word to indicate enclosure or containment" and furthermore

“an inner place or area.” The Examiner has included photocopies of these definitions for Applicants’ convenience.

Therefore, contrary to Applicants’ assertion that “the word ‘surround’ is not the same thing as ‘within’” (Amendment of September 5, 2003 at page 11), “surround” and “within” are completely synonymous with each other and can in fact mean the same thing.

2. The Examiner acknowledges and thanks Applicants for having drawn the Examiner’s attention to “walls” plural (Amendment of September 5, 2003 at page 12).
